DIRECTOR'S LETTER

At the time of production of this presentation we are at a very exciting crossroads.

After 5 years, Victoria Shanklin has left VFJ. Fortunately for us, she has left VFJ in better shape than she found it.

By implementing growth and change she has left us with a solid foundation and a solid staff.

As a staff, we are thankful to have had Tory's guidance, knowledge and wish her well.

We know she'll accomplish wonderful things.

That being said, we are extremely thankful for Penney Champney as the interim ED to guide us through the process of acquiring a new Executive Director.

We are excited for the next phase of Victims for Justice and look forward to what the future brings.

Steadily, Victims for Justice has been increasing our services to support more Alaskans than ever before.

Victims for Justice remains the only entity in Alaska that specializes in supporting Alaskans affected by violent crime outside of domestic violence and sexual assault. This includes homicide, assault, arson, robbery, hit-and-runs and many other violent offences.

THE NUMBERS

This graph shows the types of victimization our families experience according to crime type. "Other" includes cases of kidnapping, hit-and-runs, robberies, arson and other violent offences.

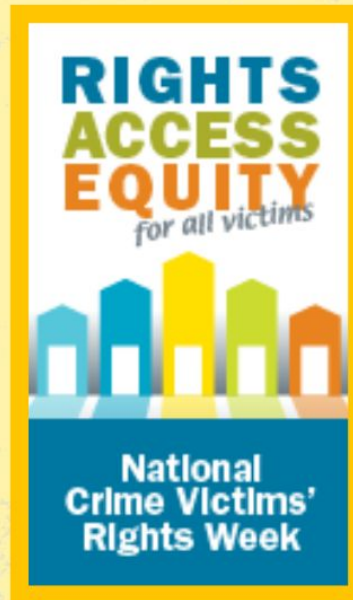

FINANCES

in FY22 Victims for Justice received funding from the State of Alaska, the Municipality of Anchorage and community contributions.

WHY WE ARE HERE

Words from the family of a homicide victim who adopted the surviving children.

"Through this horrible journey, you became a friend, therapist and a family member. I feel so blessed that you were there..."
